
Ground Breaking Ceremony

*for the
Marine Chemistry & Toxicology Building*

*Virginia Institute of Marine Science
School of Marine Science
College of William and Mary
Gloucester Point, Virginia*

April 13, 1995

About the Building

The Marine Chemistry and Toxicology Building will provide laboratory and office space in support of the Institute and School's tripartite mission of research, education and advisory services. It has been designed to employ state-of-the-art technology and provide the latest in environmental safety. This three-story facility is U-shaped with two laboratory wings connected by an atrium. Programs to be housed in the facility include: environmental chemistry, toxicology, immunology, geochemistry, physical chemistry, oyster diseases, genetics, parasitology, microbiology, nutrient cycling, and plankton.

Architect: Mr. Gregory Brezinski
Rancorn Wildman Krause Brezinski

Builder: Kjellstrom and Lee, Inc.
