We would like to thank the many people who have provided us with model output and information on model implementations, model physics, etc, even if the models are not represented on this specific poster. Funding was provided by NOAA/IOOS via the SURA Super-Regional Testbed Project. Additional members of the Testbed's Estuarine Hypoxia Team include C. Cerco (USACE), D. Green (NOAA-NWS), R. Hood (UMCES), L. Lonerelle (NOAA-CSDLI), J. Levin (Rutgers), M. Li (UMCES), L. Linker (EPA), W. Long (UMCES), K. Sellner (CRC), J. Shen (VIMS), J. Wilkin, (Rutgers), and D. Wilson (NOAA-NCBO).
