Executive Summary

The Virginia Fishery Resource Grant Program (VFRGP) enables members of Virginia's seafood industries to develop ideas to protect and enhance the Commonwealth's coastal and marine resources. Since its inception in 1999, the annually funded program has supported 103 projects, five of which were approved to start in 2013. These projects enable members of seafood industries to pursue ideas for increasing efficiency and sustainability that will benefit the entire industry, without personally bearing the cost and high risk. The VFRGP is coordinated by Marine Advisory Services (MAS) at the Virginia Institute of Marine Science (VIMS), in partnership with Virginia Sea Grant (VASG), and operates with the aid of a VFRGP Advisory Board.

Background

Since its inception, the program has funded 103 individual one-year or two-year proposals.

VFRGP was initiated by the Virginia Legislature (House Bill No. 1634) during the 1999 session to “protect and enhance the Commonwealth's coastal fishery resource through the awarding of grants in four areas.” Those areas include:

1. New fisheries equipment or gear;
2. Environmental pilot studies on issues including water quality and fisheries habitat;
3. Aquaculture or Mariculture of marine-dependent species; and
4. Seafood technology.

To be eligible for consideration, VFRGP proposals must involve Virginians who are active participants in a seafood industry. Involving the seafood industry (1) makes use of the experience and ideas of those who work closely with the Commonwealth's coastal and marine resources and (2) enables these individuals to develop and pursue improvements without personally bearing the cost and high risk to provide a shared industry benefit. Members of the seafood industry include those involved in commercial fishing activities related to coastal or offshore fishery resources, aquaculture/mariculture, or the processing or handling of fishery products.

Implementation

VFRGP is managed by an Advisory Board (see Appendix A). Funds are provided to VIMS MAS. Availability of grant funds is advertised through press releases (see Appendix B) as well as a Request for Proposals (see Appendix C) that is distributed through developed list of industry members who have elected to receive updates about the VFRGP program as well as other channels. Proposals are evaluated by members of the Advisory Board and outside reviewers, following the Principles of Operation (see Appendix D). Upon conclusion of funded projects, VFRGP receives completion reports. The results of those projects are used to produce informational and educational publications for distribution to industry. Additionally, project reports and results are presented at industry meetings and trade shows when appropriate as well as being posted on the VFRGP's website. The reports can be found at: http://www.vims.edu/research/units/centerspartners/map/frg/reports/index.php.

Program implementation is coordinated by Mr. Thomas Murray, Associate Director for Advisory Services at VIMS and Leader of the VASG Marine Extension Program. Staff at VIMS MAS is responsible for day-to-day management of VFRGP. The day-to-day management requires a small portion of the appropriated funds to partially support salary and operating costs, as foreseen by the enabling legislation.

This implementation structure is in accordance with the legislation that established the VFRGP.

Program Activity and Improvement

VFRGP Advisory Board met once at Cheriton, Virginia during 2013. The meeting focused on the review of proposals submitted in response to public solicitations. Additionally, the Advisory Board meeting provided feedback and input with which to enhance overall program effectiveness. Improvements related to developing program informational materials, media exposure, and fishing industry outreach were implemented in 2013.

The Advisory Board again endorsed holding a series of public proposal development workshops at locations throughout coastal Virginia so that all potential partici-
pants may learn about the VFRGP. Such public meet-
ings are held between the issuance of the call for propos-
als and the proposal due date. Additionally, numerous
individual meetings are held with industry to discuss the
VFRGP and specific project ideas.

**Fiscal Summary Statement**

Funds appropriated by the Legislature for FY 2012/2013
totaled $159,579 for VFRGP activity in the 2012/2013
proposal cycle.

Of the $159,579 available for new VFRGP project
awards in 2013, five new projects were approved and ini-
tiated totaling $92,374 and $9,927 was allocated to pro-
gram administration. In addition to the FY 2013/2014
appropriation of $159,579 prior year carryover funds
bring the level of funding available to support the FY
2013/2014 proposal cycle to $359,270.

Any funds remaining after the selection of new projects
after the March 2014 proposal review will be carried
forward, as called for in the enabling legislation, for use
in combination with FY 2014/2015 appropriated funds,
to support new projects which will be submitted in
response to a Request for Proposals that is to be released
in summer/fall 2014.

**Summary of 2013 Funding Period**

As a result of public notifications and follow-up work-
shops, fishing industry members submitted a total of 11
complete VFRGP proposals. The proposal topics were
quite diverse, and each project was subjected to three
expert reviews from outside the state. Once the expert
reviews were received, a project evaluation and selection
meeting was held, and the Advisory Board selected five
new projects for funding or for further development and
negotiation.

**Projects Approved in 2013**

2013-01. “Laminated Oyster Tong Shafts.”
Philip N. Shahan of Reedville, VA
Duration: May 2013 to May 2014
Funding: $15,000. Ongoing.

2013-08. “Observing Striped Bass Catch and Atlantic
Sturgeon By Catch In A Striped Bass Fishery Using
Raised Footlines.”
George Trice of Poquoson, VA
Duration: March 2013 to June 2013
Funding: $19,706. Completed.

2013-09. “Electronic Harvest Reporting Training and
Outreach.”
Ken Smith, Virginia Waterman’s Association of Heaths-
ville, VA
Duration: July 2013 to September 2014
Funding: $21,991. Ongoing.

Meade Amory, L.D. Amory Company, Inc. of Hampton,
VA
Duration: June 2013 to May 2014
Funding: $15,000. Ongoing.

2013-12. “Direct Setting of Eyed Larvae: In situ Spat-
on-Shell.”
Andrew Myles Cockrell, Little Wicomico Oyster Com-
pany of Heathsville, VA.
Duration: June 2013 to December 2013
Funding: $10,750. Completed.
Previous Projects, 1999-2012

2012-01. “Extension of Spat on Shell Season.”
Shores & Ruark Seafood Company of Urbanna, VA
Duration: March 2013 to December 2012
Funding: $11,000. Completed.

George E. Trice of Poquoson, VA
Duration: March 2012 to June 2012
Funding: $35,015. Completed.

L.D. Amory Company, Inc. of Hampton, VA
Duration: June 2012 to April 2013
Funding: $15,000. Completed.

2012-08. “Reduction of Crab Mortality in Seed Cages.”
Purcell’s Seafood, Inc. of Burgess, VA
Duration: April 2012 to December 2012
Funding: $2,580. Completed.

Oyster Seed Holdings, Inc. of Grimstead, VA
Duration: March 2012 to December 2012.
Funding: $5,600. Completed.

Arthur Bender, Lady Barbara, Inc. of Cheriton, VA
Duration: April 2012 to November 2012
Funding: $38,730. Completed.

Jeff Hammer of Accomac, VA
Duration: March 2012 to September 2012
Funding: $16,617. Completed.

Meade Amory, L.D. Amory Company of Hampton, VA
Duration: June 2011 to April 2012
Funding: $45,000. Completed.

George Trice of Poquoson, VA
Duration: March 2011 to May 2011
Funding: $30,899. Completed.

Ronald T. Sopko, Sea Farms, Inc. of Hudgins, VA
Duration: April 2011 to March 2012
Funding: $8,650. Completed.

2011-18. “Stake In the Bay.”
Michael J. Gadwill, Bonum Point Fishery of Kinsale, VA
Duration: April 2011 to November 2012
Funding: $12,910. Completed.

2010-01. “Influence of Planting Density and Salinity on QPX Disease in Mercenaria mercenaria in Virginia.”
Tara Riley, Ballard Fish and Oyster Company of Cheriton, VA
Duration: April 2010 to February 2011
Funding: $39,026. Completed.

2010-02. “Investigation of the Beneficial Effects of Intentionally Exposing Oysters to Air During Their Normal Growing Season.”
Dennis Gryder, Briar Patch Oysters of Hudgins, VA
Duration: April 2010 to December 2010
Funding: $4,350. Completed.

Robert Weagley, Commercial Fisherman of Providence Forge, VA
Duration: March 2010 to June 2010
Funding: $16,088. Completed.

2010-05. “Method and Concept Evaluation of Relaying Oysters from the Chesapeake Bay to High Salinity Water as a Post-Harvest Process to Reduce Virbio vulnificus to Undetectable Levels.”
Thomas Gallivan, Shooting Point Oysters, LLC of Franktown, VA
Duration: March 2010 to December 2010
Funding: $29,148. Completed.

2010-08. “Analysis of Tie Downs on Gillnet CPUE, Selectivity, and Bycatch Composition.”
George Trice, Commercial Fisherman of Poquoson, VA
Duration: March 2010 to May 2010
Funding: $29,026. Completed.
Clarke Morton, Mid-Atlantic Aquatic Technology of Quinby, VA
Duration: April 2010 to December 2010
Funding: $ 8,266. Completed.

Jeffery Hammer, Accomac Aqua Farms of Accomac, VA
Duration: April 2010 to July 2010
Funding: $ 9,497. Completed.

2010-14. “Create New Gear to Increase the Efficiency of Commercial Cat Fishing.”
James A. Bristow of Hayes, VA
Duration: March 2010 to December 2010
Funding: $ 11,273. Completed.

Meade Amory, L.D. Amory Company of Hampton, VA
Duration: July 2010 to June 2011
Funding: $ 37,000. Completed.

L.D. Amory Seafood Company of Hampton, VA
Duration: April 2009 to April 2010
Funding: $ 74,640. Completed.

2009-07. “Characterization of By-catch in Virginia’s Spring Striped Bass and Analysis of Gear Alterations on CPUE and Bycatch Composition.”
George Earl Trice of Poquoson, VA
Duration: March 2009 to June 2009
Funding: $ 29,696. Completed.

A.J. Erskine, Cowart Seafood Corp. of Lottsburg, VA
Duration: June 2009 to June 2010
Funding: $ 13,401. Completed.

Richard B. Robins, Jr., Bernies Conchs of Suffolk, VA
Duration: February 2009 to June 2010
Funding: $ 21,758. Completed.

2008-03. “Hedingless Pound Net.”
William Haynie of Reedville, VA
Duration: March 2008 to October 2009
Funding: $ 19,459. Completed.

2008-04. “Commercialization Spat-on-Shell Production in Virginia.”
Thomas E. Kellum, Virginia Shellfish Growers Association of Weems, VA
Duration: May 2008 to May 2009
Funding: $ 50,300. Completed.

Scott Troy Hainley of Wake, VA
Duration: August 2008 to December 2009
Funding: $ 12,040. Completed.

George Earl Trice of Poquoson, VA
Duration: March 2008 to April 2009
Funding: $ 49,329. Completed.

Frances Porter, Virginia Seafood Council of Newport News, VA
Duration: July 2008 to July 2009
Funding: $ 26,530. Completed.

Meade Amory, L.D. Amory Seafood Company of Hampton, VA
Duration: March 2008 to February 2009
Funding: $ 50,000. Completed.

Robert Weagley of Providence Forge, VA
Duration: October 2008 to May 2009
Funding: $ 17,188. Completed.

Kenneth G. Smith, Virginia Waterman’s Association of Heathsville, VA
Duration: May 2008 to September 2009
Funding: $ 4,055. Completed.
Report of Activities During 2013

A.J. Erskine, Bevans Oyster Company & Cowart Seafood Corporation of Kinsale, VA
Duration: March 2007 to June 2012
Funding: $19,000. Completed.

Frank James West of Hayes, VA
Duration: February 2007 to December 2007
Funding: $12,146. Cancelled.

Robert Weagley of Providence Forge, VA
Duration: February 2007 to May 2007
Funding: $13,916. Completed.

2007-04. “Characterization of Sturgeon and Other Regulatory Discards in Virginia’s Spring Striped Bass and Other Gillnet Fisheries.”
George Earl Trice of Poquoson, VA
Duration: February 2007 to May 2007
Funding: $33,031. Completed.

2007-05. “Feasibility Study on Grow-Out of One-year market size triploid C. ariakensis, Year II.”
Frances Porter, Virginia Seafood Council of Newport News, VA
Duration: June 2007 to July 2008
Funding: $24,064. Completed.

Meade Amory, L.D. Amory Company of Hampton, VA
Duration: March 2007 to February 2008
Funding: $57,000. Completed.

Ronald L. Jett, Smith Point Seafood of Reedville, VA
Duration: May 2007 to December 2007
Funding: $40,500. Completed.

Jim Casey of Casey’s Seafood, Inc. of Newport News, VA
Duration: May 2006 to May 2007
Funding: $17,732. Completed.

L. Haynie of Reedville, VA
Duration: May 2006 to May 2008
Funding: $27,000. Completed.

Frances Porter, Virginia Seafood Council of Newport News, VA
Duration: May 2006 to July 2007
Funding: $50,435. Completed.

2006-09. “Assessment of Sturgeon Bycatch, Bycatch Mortality and Other Regulatory Discard Mortality in Virginia Winter/Spring Gillnet Fisheries, Year II.”
Kelly Place of Williamsburg, VA
Duration: September 2005 to August 2006
Funding: $52,039. Completed.

William Haynie of Reedville, VA
Duration: April 2005 to September 2006
Funding: $19,995. Completed.

2005-03. “Feasibility Study on One-Year Grow-Out of Triploid Crassostrea ariakensis.”
Frances Porter, Virginia Seafood Council of Newport News, VA
Duration: May 2005 to June 2006
Funding: $50,435. Completed.

Margaret Ransone of Kinsale, VA
Duration: April 2005 to December 2006
Funding: $21,250. Completed.

Kelly Place of Williamsburg, VA
Duration: March 2005 to August 2005
Funding: $39,444. Completed.

Previous Projects
David C. Walker, F/V Nelson Seafood of Chincoteague, VA
Duration: June 2004 to June 2005
Funding: $ 8,300. Completed.

2004-03. “Intensive Culture of the Mudminnow (Fundulus heteroclitus) as Live Bait for Recreational Angling.”
Rudy Cashwell of Eastville, VA
Duration: April 2004 to November 2006
Funding: $ 32,935. Terminated.

2004-07. “Sea Turtle Friendly Fish Trap.”
Emory Lewis, Jr. of Fleeton, VA
Duration: June 2004 to December 2005
Funding: $ 21,900. Completed.

Wec Terry, Terry Brothers, Inc. of Willis Wharf, VA
Duration: June 2004 to June 2005
Funding: $ 30,380 Cancelled as a result of Tropical Storm Ernesto damage to facilities.

Matthew Bloxom of Poquoson, VA
Duration: March 2005 to December 2006
Funding: $ 4,901. Completed.

2003-01. “Validation of IQF Freezing Process to Reduce Vibrio vulnificus to Non-detectable Levels in Raw Oysters.”
Ron Bevans and Lake Cowart of Kinsale, VA
Duration: August 2003 to December 2003
Funding: $ 12,000. Completed.

2003-03. “Oyster Farming Cooperative Program.”
Shawn Stickler, Chesapeake Bay Oyster Farms of Wake, VA
Duration: January 2004 to August 2004
Funding: $ 24,500. Completed.

2003-06. “Identifying the Catch Efficiency and Incidental Marine Bird Entanglements Associated with Internally Floating and Weighted Lines on Gillnets.”
Millard Bryant of Montross, VA
Duration: June 2003 to June 2004
Funding $ 490. Not initiated at request of applicant.

Frances Porter and Tom Kellum, Virginia Seafood Council of Newport News, VA
Duration: July 2003 to July 2004
Funding: $ 57,976. Completed.

Frances Porter and Tom Kellum, Virginia Seafood Council of Newport News, VA
Duration: July 2004 to July 2005
Funding: $ 53,649 Completed.

2002-01. “By-catch and Discard Reduction Concerning Selectivity and Overall Design in the Black Sea Bass Trap Fishery.”
James E. Dawson of Chincoteague, VA
Duration: April 2002 to April 2003
Funding: $ 16,100. Completed.

Curtis B. Jenkins of Warsaw, VA
Duration: May 2002 to December 2003
Funding: $ 4,445. Completed.

Robert W. Shanley of Cape Charles, VA
Duration: April 2002 to April 2003
Funding: $ 38,400. Completed.

2002-07. “Development of Grow Out Techniques Utilizing the Water Column in Growing a Non-Native Oyster (Crassostrea ariakensis).”
Andy Drewer of Saxis, VA
Duration: April 2004 to June 2004
Funding: $ 22,008. Completed.

2002-09. “Tenderizing Illex Squid So It Can Be Marketed as Food Rather Than Bait.”
Sam Daniels, Wanchese Fish Co. of Suffolk, VA
Approved for funding but withdrawn at Applicant’s Request.

2002–20. “Growth Rate of Ariakensis Oysters in Different Environments.”
Richard Wade Harding, Purcell’s Seafood Inc. of Burgess, VA
Duration: April 2002 to May 2004
Funding: $ 10,854. Completed.

NEWS RELEASE
November 22, 2013

MEETINGS FOR VIRGINIA WATERMEN TO LEARN ABOUT GRANTS AVAILABLE

The Marine Advisory Program (MAP) at the Virginia Institute of Marine Science (VIMS) is accepting applications to compete for funding as part of the Virginia Fishery Resource Grant Program (VFRGP). The Virginia Legislature created the Virginia Fishery Resource Grant Program to “protect and enhance the Commonwealth’s coastal fishery resource through the awarding of grants.”

Basic to the program is the belief that people in the commercial fishing industry often have valid ideas to enhance and protect fisheries, but may lack the financial resources to experiment with innovations. The Virginia Fishery Resource Grant Program invests in such ideas generated by the fishing public through fair and competitive methods.

The legislation established four priority areas for funding as follows:

- New Fisheries Equipment and Gear - focus on the development of less environmentally destructive gear, by-catch reduction, and more effective ways to handle catch.
- Environmental Pilot Studies - focus on ways to restore damaged habitat, create new habitat, prevent habitat impairment, or reduce impact from fishing or aquaculture activities.
- Aquaculture/Mariculture - focus on ways to develop criteria and assessment for permits, increase return from investment in culture activities, or introduce new species to the existing aquaculture list to broaden participation in commercial aquaculture.
- Seafood Technology and Utilization - develop value added products from existing production, the utilization of underused or new fishery resources, develop models for total quality system management programs, or increase returns in the seafood industry by improving packaging and handling.
Virginia Fishery Resource Grant Program

Eligibility - To be eligible for funding under the Virginia Fishery Resource Grant Program, each proposal must substantially involve Virginians who are actively involved in a fishing industry (which is defined as persons involved in commercial activities relating to fishery resources, aquaculture/mariculture, or the processing or handling of fishery products). Proposals submitted by persons not involved in a fishing industry must have 1) substantial involvement of Virginia fishers as defined above, and 2) include written endorsements from persons or organizations representing fishing industries supporting the project. The work can involve both inshore and offshore fisheries. All proposals submitted within the limits of the Guidelines for Submission will be accepted and reviewed for technical merit and the ability to address one or more of the specific priorities listed above.

Proposal Submission - To be considered for funding in this solicitation, a signed application must be postmarked no later than January 31, 2014. Mailed copies should be sent to: Tom Murray, VFRGP Manager, Marine Advisory Program, Virginia Institute of Marine Science, P.O. Box 1346, Gloucester Point, Virginia 23062. No applicant may submit more than 2 proposals for this cycle. Faxcd or electronic proposals will not be considered.

A series of workshops will be held to explain the grants program, including eligibility and funding priorities, how to complete the application form, and where to go for more help when developing a grant proposal package. The time and location of these workshops are listed below:

Tuesday, December 17, 2013 from 6:00 to 8:00 pm
Classroom 150, Eastern Shore Community College
29300 Lankford Highway
Melfa, VA 23410

Wednesday, December 18, 2013 from 6:00 to 8:00 pm
Director’s Conference Room, Watermen’s Hall
VIMS Campus, 1375 Greate Road
Gloucester Point, VA 23062

The Request for Proposals and application forms are available on-line at: http://www.vims.edu/adv/frg. To request a copy of the application package contact Dianne Roberts at (804) 684-7173.
Proposals will be accepted from January 6, 2014 – January 31, 2014

The Marine Advisory Program (MAP) at the Virginia Institute of Marine Science (VIMS) is accepting applications to compete for funding as part of the Virginia Fishery Resource Grant Program (VFRGP). The Virginia Legislature created the Fishery Resource Grant Program to “protect and enhance the Commonwealth’s coastal fishery resource through the awarding of grants” in four areas: 1) new marine fisheries equipment or gear; 2) environmental pilot studies on issues including water quality and fisheries habitat; 3) aquaculture or mariculture of marine-dependent species; and 4) seafood technology.

A basic principle of the VFRGP is that people in the industry often have valid ideas for enhancing and protecting fisheries, but they lack the financial resources to experiment with innovations. The VFRGP invests in ideas generated by the fishing public through fair and competitive methods.

The legislation established the four priority areas noted above. Specific priorities within the four topic areas have been approved by the VFRGP Advisory Board and are noted below. All proposals submitted within the limits of the Guidelines for Submission will be accepted and reviewed for technical merit and the ability to address one or more of the specific priorities listed.

**New Fisheries Equipment and Gear** – This priority area seeks proposals that focus on the development of less environmentally destructive gear, bycatch reduction, improvements in gear selectivity, more effective ways to handle catch and the development of information leading to fishery management plans for key species and groups.

**Environmental Pilot Studies** – This priority area seeks proposals that focus on ways to restore damaged habitat, create new habitat, prevent habitat impairment or reduce impact from fishing or aquaculture activities.

**Aquaculture/Mariculture** – This priority area seeks proposals that focus on ways to develop criteria and assessment for permits, increase return from investment in culture activities or introduce new species to the existing aquaculture list to broaden the participation in commercial aquaculture.

**Seafood Technology and Utilization** – This priority area seeks proposals that develop value-added products from existing production, the utilization of underused or new fishery resources, develop models for total quality system management programs or increase returns in the seafood industry by improving packaging and handling.
Eligibility
To be eligible for funding under the VFRGP, each proposal must substantially involve Virginians who are actively involved in a fishing industry (defined as persons involved in commercial activities relating to fishery resources, aquaculture/mariculture or the processing or handling fishery products). Proposals submitted by persons not involved in a fishing industry must have 1) substantial involvement of Virginia fishers as defined above and 2) written endorsements from persons or organizations representing fishing industries supporting the project.

Proposal Development
Competitive proposals are developed through discussions of ideas and partnering with interested groups and experts. Every applicant should consult with experts in the targeted priority area(s) and, where appropriate, develop a team of fishers and scientists to conduct the work. VIMS MAP specialists can help assemble a team. Non-fishers could improve chances of funding by collaborating with persons in a fishing industry for proposal development and design and by involving fishers in the execution of the study. VIMS MAP will be responsible for determining the eligibility of each proposal.

Application Forms
The application form at the end of this notice provides an outline for the proposal and additional pages should be used for providing information in the sections listed. Applicants should pay particular attention to items 12-17. These sections should describe the problem and rationale for proposing the research project (12), present the goals and objectives and the proposed work (13) and describe the work that is to be performed to meet the objectives (14). The next three sections should explain how the information gained from the work will help resolve the problem described (15), how the information developed will be transferred to others (16; please note that it is not enough to say the data will be given to VMRC or another agency) and who will be responsible for doing the work (17; letters confirming participation should be obtained from all cooperators).

A series of workshops will be held to explain the grant program, including eligibility and funding priorities, how to complete the application form and where to go for more help when developing a grant proposal package. The time and location of these workshops will be announced through press releases to the media and in selected newsletters. The workshop schedule is also included in this announcement.

Proposal Submission
To be considered for funding in this solicitation, a signed application must be delivered or postmarked no later than 5:00 pm, January 31, 2014. Mailed copies should be sent to: Tom Murray, VFRGP Manager; Marine Advisory Program, Virginia Institute of Marine Science, P.O. Box 1346, Gloucester Point, VA 23062. No applicant may submit more than 2 proposals for this cycle. Fax or electronic proposals will not be accepted.

To ensure competitive project selections, VFRGP will subject all proposals to a series of reviews by a panel of experts from outside of Virginia. The VFRGP Advisory Board (see appended list of Advisory Board members) will also provide proposal evaluations to the selection process. VFRGP will make proposal selection decisions and funding agreements will generally be effective during the second calendar quarter of 2014.

Funding Priorities
The following list of potential research ideas has been reviewed and approved by the VFRGP Advisory Board and is provided as suggestions of the types of subjects that could be appropriate for proposals to the VFRGP. These are not intended as a complete listing of all possible projects; nor are the topics listed in order of importance. All proposals received by the submission deadline will receive equal treatment during the review process.
Potential research topics or issues include but are not limited to the following:

I. **Inshore and Offshore Harvesting Sector Studies**
   1. Reduce bycatch by technology development and education.
   2. Develop “environmentally friendly” gear.
   3. Develop more effective/efficient mechanisms for handling catch.
   4. Develop and evaluate mechanisms to release fish to increase their survival.
   5. Determine amounts of hook-and-release mortality for important recreational species.
   6. Increase efficiency/economic return of fishing.
   7. Develop bait and bait substitutes.
   9. Develop information leading to Fishery Management Plans for key species and groups.
10. Develop new gear and/or improve current gear and/or document catch per unit effort (CPUE).
11. Develop gear to improve selectivity of target species.

II. **Environmental Pilot Studies**
   1. Develop mechanisms to restore damaged habitat or create new habitat.
   2. Develop mechanisms to prevent habitat impairment.
   3. Reduce habitat impact from fishing activities.
   4. Develop recycling and collection programs for used fishing or aquaculture gear.
   5. Develop ways to monitor and evaluate habitat alterations or the impacts of aquaculture practices such as moving of seaside shellfish to the bayside.
   6. Determine environmental impact of fishing and processing activities.
   7. Assess effects of water quality and habitat alteration on fisheries production.

III. **Aquaculture/Mariculture**
   1. Increase return from investment in culture activities including the development of mechanical planting and harvesting technologies.
   2. Examine the potential for culture of new species and/or deep-water culture techniques for existing species such as clams and oysters.
   3. Determine environmental impacts of aquaculture operations.
   4. Improve the efficiency of growth, feeding and nutrition.
   5. Demonstrate the best husbandry practices for potential growers.
   6. Develop mechanisms for a network for technical monitoring of waters for levels of spat fall, food, predators, etc.
   7. Market research for aquaculture products.
   8. Develop parameters for apprentice program and training for career aquaculturists.
   9. Assess feasibility of augmenting commercially and recreationally important species through hatchery release.
10. Assess regulations that impact aquaculture/mariculture such as submerged aquatic vegetation protection.
11. Assess the potential of shellfish aquaculture to enhance wild populations.
12. Provide the opportunity for watermen, including minorities, to diversify their businesses through aquaculture.
Virginia Fishery Resource Grant Program

III. Seafood Technology particularly as it provides value added to the Commercial Blue Crab Fishery

1. Develop value-added products from existing or potential production.
2. Increase returns in the seafood industry by improving packaging and handling.
3. Develop models for total quality system management programs.
4. Develop improvements in product quality.
5. Develop mechanisms for reducing effluents and the environmental impacts.
6. Develop alternative uses for processing byproducts.

Contacts

If you have an idea for a project, you may contact the following VIMS MAP specialists for assistance in writing your proposal or to request additional information. These people can also direct you to a research scientist who has expertise related to your project topic.

VIMS MAP contacts include:

Virginia Fishery Resource Grant Program - Application Workshops

Two workshops will be held to explain the VFRGP, including eligibility and funding priorities, how to complete the application form and where to go for more help when developing a grant proposal package. The time and location of these workshops is listed below:

**Tuesday, December 17, 2013**
6:00 to 8:00 pm
Eastern Shore Community College
(Classroom 150)
29300 Lankford Highway
Melfa, VA 23410

**Wednesday, December 18, 2013**
6:00 to 8:00 pm
Virginia Institute of Marine Science
(Director’s Conference Room, Watermen’s Hall)
1375 Greate Road
Gloucester Point, VA 23062
Appendix

Virginia Fishery Resource Grant Program – Advisory Board

**VFRGP Manager**
Tom Murray, Associate Director for Advisory Services  phone: 804-684-7190
Virginia Institute of Marine Science  fax: 804-684-7161
P.O. Box 1346  email: tjm@vims.edu
Gloucester Point, VA  23062

**For Virginia Sea Grant Program**
Dr. Troy Hartley, Sea Grant Director  phone: 804-684-7248
Virginia Institute of Marine Science  fax: 804-684-7269
P.O. Box 1346  email: thartley@vims.edu
Gloucester Point, VA  23062

**For Virginia Marine Resources Commission**
Dr. James Wesson  phone: 757-247-2121
Virginia Marine Resources Commission  fax: 757-247-8101
2600 Washington Avenue, Third Floor  email: jwesson@mrc.state.va.us
Newport News, VA  23607

**For Virginia Institute of Marine Science**
Dr. Mark Luckenbach, Associate Dean  phone: 804-684-7108
for Research and Advisory Services  fax: 804-684-7097
Virginia Institute of Marine Science  email: luck@vims.edu
P.O. Box 1346
Gloucester Point, VA  23062

**For the Aquaculture Industry**
Mike Peirson  phone: 757-678-7999
P.O. Box 222  email: thepeirsons@yahoo.com
Eastville, VA  23347

**For the Watermen’s Associations**
Marshall Cox  phone: 757-373-2990
6428 Rocky Lane  email: mrscox@intercom.net
Cape Charles, VA  23310

Pete Nixon  phone: 804-466-8940

Virginia Fishery Resource Grant Program

Application

1. Project title: __________________________________________________________

2. Name of applicant: __________________________________________________

3. Company (if applicable): _____________________________________________

4. Telephone: __________________________________________________________

5. Address: _____________________________________________________________

   ____________________________________________

   ____________________________________________

6. Priority addressed by project (see list): ________________________________

7. Fishing license/permit number(s): _____________________________________

8. Social security or federal tax ID number: ________________________________

9. Funding requested: ____________________________________________________

10. Project dates: beginning ____________  _________ completion

11. Other project participant(s), affiliation, address and phone:

   ________________________________________________________________

   ________________________________________________________________

[Note: Use additional pages as needed to respond to the items below.]

12. Give a brief summary of the situation or problem to be addressed.
13. What is the purpose (objectives) of the project?

14. What work do you intend to do, and how do you plan to accomplish it?

15. Explain how the expected results will address the problem and/or enhance fishery resources.

16. Explain how the expected results will be made available to the fishing industry.

17. Briefly outline who will be responsible for each aspect of the work plan (attach letters from cooperators outlining their participation).

18. Briefly summarize the qualifications of each participant.
19. Provide project budget and cost justification.

<table>
<thead>
<tr>
<th>ITEM/CATEGORY</th>
<th>AMOUNT</th>

20. Provide budget item justification and/or explanations.

Applicant Signature: _______________________________ Date: ________________
Virginia Fishery Resource Grant Program
Application Guidelines

1. Provide a title that summarizes the project.

2. Give the full name of the applicant; it will be used to issue payments for the project.

3. Give the name of your company or corporation if applicable, or the institution of your employment. If self-employed, say so.

4. Applicant's complete telephone number including area code.

5. Mailing address for correspondence and mailing payments, etc.

6. Which priority are you addressing? The attached listing gives this year's priorities under the four-program areas equipment/gear, environment, aquaculture and seafood.

7. Give fishing license or permit number(s), if applicable.

8. Social security or federal ID number is required for grant payments.

9. Total amount of funding requested (see budget section).

10. Give the date that you plan to begin work and the date that we can expect a completion report.

11. List all other personnel involved in the project and their affiliation. This includes all those who have a major responsibility for some aspect of the work.

**Use additional pages as needed to fully answer items 12 through 18**

12. Describe the nature of the situation or problem that your proposed work will address.

13. What is the purpose of your proposed work?

14. This section is very important! Please explain how, where and when you will conduct each work task. Explain how tests will be run and how the data will be analyzed. Describe the tests you plan to conduct, the surveys you will make and/or plans for making something. Your methodology must withstand questions about its validity and/or potential to yield the results you need to solve the purpose of your work (described in number 13 above).

15. Describe how the outcome of your proposed work will help address the problem described in number 12 above.

16. Describe how you plan to get the results of your work to other members of the fishing industry for their use. It is not enough to just discover something. It must also be usable. If you are going to rely on someone else to extend the results, be sure to have an agreement and arrange to cover those expenses.
17. Who is going to be responsible for what? Each participant (including the applicant) must be responsible for some part of the work. You must have letters of endorsement from other participants to confirm their participation in the project. For example, if personnel from VIMS will conduct the statistical analysis, then an agreement letter from VIMS is required.

18. Give a brief statement describing the experience of each participant and the applicant that qualifies them to do the tasks outlined above.

19. Carefully compute the funds needed (rounded to the nearest dollar) for all of the work described in the proposal. Be sure to include any subcontractors (budget item e.) for lab work, consultants, extension, services, etc. The funding for these grants does not permit indirect costs (overhead). Be sure to check your budget total figure.

20. Please justify the budget figures. For example: “We will need a deckhand for 150 hours @ $7/hour,” or “We will need to design and build a trawl that requires $1,200 for materials,” etc.

- Be sure to sign the application! Applications without a dated signature will be rejected as incomplete.

- Mail the signed original to: Tom Murray, VFRGP Manager, Advisory Services, Virginia Institute of Marine Science, P.O. Box 1346, Gloucester Point, VA 23062.

- Applications must be postmarked no later than January 31, 2014. Applications may be delivered to the Advisory Services office in Gloucester Point only until 5:00 pm on January 31, 2014. Late proposals will be returned to the applicant without being considered.

- If you need assistance completing the grant application, a resource list is available from Mrs. Dianne Roberts (phone: 804-684-7173; email: droberts@vims.edu). This RFP and application form is available at this website: http://www.vims.edu/adv/frg.
Appendix D

VFRGP Principles of Operation

Authority: The Virginia Legislature ratified House Bill 1634 in 1999 providing funding to “protect and enhance the state’s coastal fishery resources through the awarding of grants.”

Administration: The program is administered by the Advisory Services Program at the Virginia Institute of Marine Science with input from an appointed Advisory Board. The Board, based upon rankings from reviews and consistent with priorities, will determine the grants to be awarded.

Priorities: The Advisory Board, with input from members of the fishing industry, develops priorities for each year in the following areas:

1. New fisheries equipment and gear;
2. Environmental pilot studies, including water quality and fisheries habitat;
3. Aquaculture/mariculture; and
4. Seafood technology.

Eligibility: Each proposal shall include substantial involvement of active Virginia persons involved in a fishing industry. The term “fishing industry” includes persons involved in commercial activities related to inshore and offshore fishery resources, aquaculture/mariculture, or handling of fishery products (i.e. seafood dealers and processors). A proposal generated by a person not involved in a fishing industry must have substantial involvement of Virginia fishers (as defined above) as well as written endorsements from persons or organizations representing fishing industries in support of the project.

Technical Assistance: Following the establishment of priorities by the Advisory Board, VIMS Advisory Services shall hold workshops at coastal locations to solicit applications and to assist persons involved in fishing industries in writing proposals. A list of technical advisors will be available throughout the proposal writing process for assistance and participation.

Application: Applications must be completed based on the format provided for that purpose. Additional pages or supplemental materials (diagrams, photos, etc.) are acceptable if they better explain the project. Applications may include technical assistance as part of the project and funds may be budgeted to pay for this. Incomplete applications will not be accepted for consideration. Application forms listing information needed for a proposal are available from VIMS (see listing below for contact details).

Project Duration: Projects must reach conclusion within two years or less.

Geographic Distribution: To the extent practicable, grant funding will be distributed to applicants within Virginia counties that border the Atlantic Ocean or Chesapeake Bay and its tributaries to the extent of tidal influence.

Review Procedures: An anonymous outside peer review will be conducted for all applications. At least one of the reviewers shall be a person involved in a fishing industry. Applications shall be confidential until after funding decisions are made.
Project quality will be assessed on the following criteria:

1. Addresses a priority,
2. Ability to protect or enhance fishery resources;
3. Organization of a work plan leading to conclusions,
4. Plan to extend findings to the fishing industry;
5. Availability of expertise and its application;
6. Familiarity and experience with the problem addressed;
7. Innovation of approach and/or potential findings;
8. Cost-effectiveness of implementation of results; and
9. Reasonableness of budget for work proposed.

Based upon panel reviews and Advisory Board input, proposals will be recommended to the Marine Science Consortium. The Consortium will make all final decisions on grants, including the level of funding for each project.

Restrictions: No member of the Fishery Resource Grant Program staff or the Advisory Board or members of his/her immediate family may benefit financially from a grant. If a grant recipient from a prior year has failed to perform a grant project to the satisfaction of the Consortium, the principal applicant may be denied funding for a new application.

Grant recipients shall provide quarterly progress reports to the VFRGP and shall submit invoices describing expenditures for each quarter. Twenty-five percent (25%) of the total grant award shall be awarded on the start date and certified upon verification of expenditures. The final 25% of the total grant award shall be held until the recipient has completed and submitted a satisfactory final written report. The remainder of the grant award shall be distributed upon approval of quarterly reports, verification of expenditures and receipt of an invoice.

Questions concerning the Virginia Fishery Resource Grant Program may be directed to the following:

Tom Murray,
