Dear Carol,

Springer Nature has no objection to your plan.

Thank you.

Kind regards, Alice

Hello Alice,

Thank you for the link, I had already seen this but reached out because -

I am requesting permission to add and publish in our institutional repository, W&M ScholarWorks <https://scholarworks.wm.edu/> the following items written by Institute researchers from the book: Estuarine Circulation. B.J. Neilson, A. Kuo, and J. Brubaker (eds.) 1989. Humana Press, NJ.

1. Kiley, K.P., C.S. Welch. The response of estuarine circulation to local wind events. P.97-112.
2. Ruzecki, E., Hargis, W.J. Jr. Interaction between circulation of the estuary of the James River and transport of oyster larvae. p. 255-278.

Full attribution to the book will be given.

The information on the self archiving policy page are not of assistance/relevant. The articles in question are 30 years old, the authors are not reachable or deceased, and there are no copies of author accepted manuscripts in existence. Therefore, I am seeking permission to add scanned copies of these items to our institutional repository to represent their scholarship.

Thank you in advance,

Carol Coughlin
